

Clean Energy Finance

Go solar with \$0 upfront deposit

Avoid the uncertainty of increasing electricity prices by paying for your system with fixed monthly repayments that are easier on your household budget.

Thousands of smart Australian home owners are choosing to finance their solar solution so they can save on their electricity whilst they pay off their system.

They know that paying for their system with a fixed monthly payment means they can hold onto their cash whilst still enjoying the benefits.

Moving from the uncertainty of ever increasing electricity bills to a fixed, monthly finance payment makes sense, making solar more accessible than ever.

Independent Australian clean energy financing provider

Flexible terms from 2 to 7 years, fixed payments and no up front deposit

Simple phone application process. Paperless contract e-signing

You own the system so once paid off, all electricity from the system is free

A friendly Australian based call centre to assist you.

E-SIGN

If approved you can e-sign your contract on your laptop, tablet or phone - paperfree and easy!

INSTALL

Schedule your system installation!

Enjoy the benefits!

APPLY TODAY - 1300 780 895

FAQs

Why should I get a Classic loan when others are offering “interest free”?

Yes, Classic loans do include interest. However, many of the so called “interest free” plans work on the basis that the price of the system is higher than if you were paying cash up front. With a loan from Classic you know exactly how much the system costs and how much interest you will pay. The price is not inflated regardless of whether you choose to pay cash upfront or finance.

What if I sell my home?

If you move or sell you can either pay out the loan balance or transfer the clean energy payment plan to the new homeowner (upon approval by Classic).

What if I want to pay my system off & exit the contract?

You can pay off the loan early and the exit process is simple. Fees may apply.

Am I eligible?

To be eligible you must:

- Own the property (or be the mortgagee) the system is being installed on
- Be an Australian citizen or permanent resident
- Be at least 18 years old
- Have a good credit history
- Pay your electricity bill on time

Consumer credit is provided by Classic Clean Energy Finance Pty Ltd (ACN 145 265 103), Australian Credit Licence number 434863. Terms, conditions, fees, charges and credit criteria apply.
